

Exputec is a technology company based in Vienna that produces and sells Software and Consulting solutions in the field of Biotechnology. Our innovative methods are based on discovering interdependencies which lead to a reduction of the process development time, heightened confidence in scalability, and an increase in robustness of the biotech production.

For our Vienna or Budapest office, we are looking for a

Head of DevOps

As an engaged and application-oriented manager with hands-on IT experience, your responsibility is the design, maintenance and management of IT infrastructure required for scalable software as a service (SaaS) products. As head of a highly qualified and enthusiastic team, you interlink software development, data science and infrastructure to roll-out world class software as a service (SaaS) products to professional customers.

Principle Roles & Responsibilities

- Design and build infrastructure for software as service (SaaS) products, ensuring the highest levels of security.
- Design and implementation of real-time monitoring systems of software as a service (SaaS) products.
- Management of Linux and Microsoft Windows based operating systems on server and client side.
- Management of the interface between software operations and scrum software development teams.
- Oversee the technological infrastructure (networks and computer systems) in the organization to ensure optimal performance.
- Hands-on support to the frontend and backend engineering teams.
- Documentation and implementation of systems infrastructure best practices.

Background & Qualifications

- Proven experience in management of IT infrastructures (hardware and software)
- Excellent knowledge of IT systems and web-based software infrastructure.
- Hands-on experience with VM based software systems (e.g. Proxmox, KVM, VMware).
- Hands-on experience with web servers and database systems (e.g. Apache, PostgreSQL).
- Hands-on experience with virtualization techniques, programming, database systems.
- Leadership skills.
- BSc/BA in computer science, engineering or relevant field; MSc/MA will be preferred.
- You speak business English fluently.

We look forward to your candidate submission, which you can send to us online at careers@exputec.com.

For legal reasons, we are obliged to inform you, that the collective bargaining minimum salary for this position is €35'868 gross yearly. Our salaries are nonetheless oriented towards market based salaries and may be significantly higher than the minimum salary.
